Announcement

Diener Syz Real Estate is now Asia Green Real Estate

Over the last eight years, our company has achieved significant growth. As an owner managed firm, we think and operate with a long-term perspective. Our five partners and exceptional teams of local real estate experts in Zurich and Asia are personally and professionally committed to achieving strong returns in our sustainable real estate investments in Asia.

Our Name Is Our Commitment

Our focus on sustainability has increased over the years and we are proud to have entered into a close cooperation with the IFC World Bank Group and its green building certification process.

More and more investors are looking for responsible and sustainable investments in Asia, a strategy that we have advocated since our inception. We are honored to have gained the trust of leading Swiss and European institutional investors and family offices, which have invested with us. Further, we are privileged to work together with leading local real estate developers as their long-term partners.

To leverage on our achievements and to further increase our focus on sustainable real estate, the five partners and the Board of Directors have decided to align the company name with our investment focus. It is with great pleasure to announce our new company name to be: **Asia Green Real Estate**

All five partners will keep their current responsibilities and there is no change in ownership. We would like to take the opportunity to thank you for the cooperation and trust in our company. We look forward to continue being your trusted partner for sustainable real estate investments in Asia.

Kind regards,

The partners

Alex Büchi

Andries Diener

Andrew Goodridge

Jürg Syz

Rudolf Tschopp
